AvatarSEN Project

The commencement of the AvatarSEN project is hereby announced, an innovative initiative co-funded by the European Union, dedicated to transforming education for students with special educational needs (SEN). Through the application of personalized avatars, interactive reading materials, and advanced technology, the project aims to reshape the learning experience to cater to individual needs and enhance educational outcomes.

The project is proud to collaborate with distinguished institutions committed to educational excellence: university of cyprus, girift egitim teknolojileri yazilim ve danismanlik san. tic. ltd. sti., diefthinsi protobatismas ekpaidefsis ftiotidas, mykonos international initiative, specjalny osrodek szkolno-wychowawczy im. henryka sienkiewicza w swidniku, c.e.i.p. federico garcía lorca.

AIM

The project aims to promote enhanced engagement and motivation among students, providing tailored learning support that adapts to their distinct requirements.

AvatarSEN

Why AvatarSEN?

The primary objective of AvatarSEN is to enhance the educational journey for students with special educational need who face mental challenges.

The key components of this project include:

- Literature Review and Data Collection: Establishing a thorough understanding of existing literature to inform practices through a comprehensive guide creation.
- Avatar Development: Creating personalized avatars tailored to the unique needs of each student.
- Interactive Reading Material Development: Producing engaging reading materials designed to foster comprehension and motivation.

Did you know?

That the logo of the project was designed through the collaborative efforts of the Spanish and Polish partner schools.

Reflections off Kick-off Meeting

On the 8th and 9th of May 2024, project partners convened along the picturesque shores of Mykonos, graciously hosted by MII. Set against a backdrop of stunning landscapes, partners engaged in comprehensive discussions regarding the progress of the WP2 guide, diligently laying the groundwork for its imminent completion and strategic next steps were meticulously planned.

In the aftermath of the meeting, partners were afforded the opportunity to immerse themselves in the enchanting allure of Mykonos. The team explored its charming streets, characterized by whitewashed buildings, and experienced the genuine warmth of local hospitality. Each moment spent in this captivating setting contributed to the collaborative spirit of the gathering. As a result of this successful meeting, partners depart with renewed inspiration and determination, poised to advance the AvatarSEN project towards its ambitious objectives.
